

## CITY OF LODI COUNCIL COMMUNICATION

**AGENDA TITLE:** Set Public Hearing for August 3, 2011, to Consider Resolution Adopting 2010 Urban Water Management Plan

**MEETING DATE:** July 6, 2011

**PREPARED BY:** Public Works Director

---

**RECOMMENDED ACTION:** Set public hearing for August 3, 2011, to consider resolution adopting 2010 Urban Water Management Plan (UWMP).

**BACKGROUND INFORMATION:** State law requires the UWMP be updated by all water suppliers every five years. The City Council adopted the current UWMP on March 15, 2006. In November 2009, the State enacted SB x7-7 which changed the requirements for water suppliers to increase efficiency and water conservation. Because of these changes, the State released updated guidelines on October 1, 2010 with the final methodologies for calculating these water-reduction targets released in February 2011. The UWMP Guidebook for preparing the update was released by the State in March 2011. The due date for the submittal of the adopted 2010 UWMP was extended to August 1, 2011.

On December 15, 2010, City Council approved an agreement with RMC Water and Environment, of Walnut Creek, to prepare the 2010 UWMP.

The UWMP outlines Lodi's historical and projected population, water supply and demand, water shortage contingencies, and demand management measures implemented by the City. This plan also addresses water usage targets and reduction plan as required by the State for water use reductions of 15 percent by 2015 and 20 percent by 2020. These reductions utilized in the UWMP are based on Method 1, 80 percent Base Daily Per Capita Use gpcd, which calculates the reductions from a calculated baseline. The targeted reductions presented in the UWMP are 223 gpcd for the interim target (15 percent by 2015) and 199 gpcd for the final target (20 percent by 2020).

At the August 3, 2011 meeting, RMC Water and Environment will give a presentation outlining the contents and findings contained in the UWMP. Copies were made available to the public on June 2, 2011.

**FISCAL IMPACT:** By maintaining an updated Urban Water Management Plan in accordance with State requirements, the City of Lodi will remain eligible for Proposition 50 grant funding.

**FUNDING AVAILABLE:** None required.

**a) Resolution adopting 2010 Urban Water Management Plan (UWMP) update.**

California state law requires each urban water supplier to prepare and adopt a UWMP plan every five years. The UWMP documents the City's plans to ensure adequate water supplies to meet existing and future demands for water under a range of water supply conditions, including water shortages. This year, the UWMP also includes information related to the 20 percent by 2020 conservation requirement of the Water Conservation Bill of 2009. A summary of the UWMP, including the City's plans to achieve the 2020 conservation targets, will be presented at the public hearing.

The draft 2010 UWMP is available for public review and written comments will be accepted from June 2, 2011 to August 3, 2011. The 2010 UWMP is available at the City's website: [http://www.lodi.aov/public\\_workshvater.html](http://www.lodi.aov/public_workshvater.html).
